Colour Anodising Limited	Risk assessment name	Potential Exposure To Suspected/Diagnosed Coronavirus	Assessment type	General
	Assessor name	Jonathan Buckley	Affected site(s)	Colour Anodising Ltd (M26 2RH)
	Assessment date	28/05/2020	Review period	Monthly
	Approved by	Jonathan Buckley	Review date	28/06/2020
	Approved date	28/05/2020	Reference	Col858004

Workspace(s)			Description
Access / Egress	Office	Outside Area	This Risk assessment has been created to assess and minimise the risk from coronavirus in the work place.

Overall risk rating : 4 (Low)

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
COVID-19 COVID-19 is a Coronavirus. The virus is spread via droplets when a person coughs or sneezes. The droplets land on surfaces and are picked up on the hands of others and spread further. People catch the virus when they touch their infected hands to their mouth, nose or eyes.	All staff How? Contracting the virus could lead to symptoms including raised temperature or new/continuous cough. https://www.nhs.uk/conditions/coronaviruscovid- 19/symptoms-and-what-to-do/	Do Not Share PPE/RPENo work should be completed utilising other people PPE.With particular focus on gloves, face masks etc.Where PPE is reusable, all articles should be thoroughly cleaned after use.	1 x 8 8 Low

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
		 Do not use local shops for food during breaks. Where possible, bring food and a refilable bottle rather than using local shops where numerous bodies are/have been present. Protective Screens Provided & Used Protective Screens Provided & Used 	

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
		 Social Distancing (2 Metres Apart) All individuals should operate a minimum of 2m apart. Where this is not possible, apply risk assessment process where this is not possible or vulnerable person(s) are involved. Warning & Information Signage Displayed Relevant warning & information signage displayed specifically to maintaining 2 meter distance 	

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
Contact with contaminated non-sanitised surfaces Carriers may cough or sneeze over surfaces and/or touch it with uncovered hands with no follow up cleaning of the surfaces	All staff, visitors How? Those coming in to secondary contact with the surface could develop symptoms of the virus.	Good Hand Washing/Hygiene Procedures Observed Good hand washing procedures observed to reduce the risk of skin disorders and promote good hygiene	1 x 8 8 Low
		Hygiene Procedures in Place & Followed Hygiene procedures in place & followed

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
Those with pre-existing conditions Individuals with weakened immune systems, auto- immune/motor neuron disorders, expectant mothers, older people and those with diagnosed lung, kidney, liver or heart disease, cancer, or diabetes and those who are overweight with a BMI of over 40. Up to date at risk groups can be found at: https://www.gov.uk/government/publications/covid- 19-guidance-on-social-distancing-and-for- vulnerable-people/guidance-on-social-distancing- for-everyone-in-the-uk-and-protecting-older- people-and-vulnerable-adults	become infected.	 Follow Government and PHE guidance. Employees are encouraged to follow the guidance from the Government and Public Health England as to correct health measures. Health conditions announced. For those with a pre-existing health condition that may be affected by Coronavirus infection, employees are encouraged to inform management. 	1 x 8 8 Low

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
		 Social Distancing Individual should exercise 'social distancing'. Avoid contact with someone who is displaying symptoms of coronavirus (COVID-19). These symptoms include high temperature and/or new and continuous cough Avoid non-essential use of public transport, varying your travel times to avoid rush hour, when possible. Work from home, where possible. Avoid large gatherings, and gatherings in smaller public spaces such as pubs, cinemas, restaurants, theatres, bars, clubs. Avoid gatherings with friends and family. Keep in touch using remote technology such as phone, internet, and social media. Use telephone or online services to contact your GP or other essential services. Everyone should be trying to follow these measures as much as is pragmatic. 	

Hazard	Who could be harmed and how?	Existing controls	Risk rating (L x S)
		 Temporary Isolation Those who become unwell during employed ours should be temporarily isolated in a room with a closeable door, a minum of 2 meters away from other where possible. Ensure in transit that the individual does not come in to contact with other people, surfaces or objects and their mouth and nose are covered by a tissue or crook of their elbow. 	

Further control measures

None required

Operating procedures

Those returning from affected regions or those concerned that they have come into contact with those displaying symptoms should seek advice from https://www.nhs.uk/conditions/coronavirus-covid-19/, which may include / result in self-containment for a minimum of 7 days. Internal HR department and direct line management should be informed immediately.

For individuals displaying symptoms, reduce potential spread by leaving the workplace or client premises and return home immediately. Contact should be made

with the internal HR department and direct line management.

Measures of 'social distancing' should be applied. Individual should exercise 'social distancing'.

- 1. Only go outside for food, health reasons or work (where this absolutely cannot be done from home)
- 2. Avoid non-essential use of public transport, varying your travel times to avoid rush hour, when possible.
- 3. Stay 2 metres (6ft) away from other people
- 4. Wash your hands as soon as you get home

Everyone should be trying to follow these measures as much as is pragmatic.

The incubation period of COVID-19 is between 2 to 14 days - therefore anyone in supposed contact with an infected individual who shows no symptoms post this time has not been infected themselves.

Contact should be made to your internal HR Department and direct line management both on returning from affected areas and/or returning to work following 14 day quarantine. The company may opt to extend the period of quarantine before returning to work. https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance

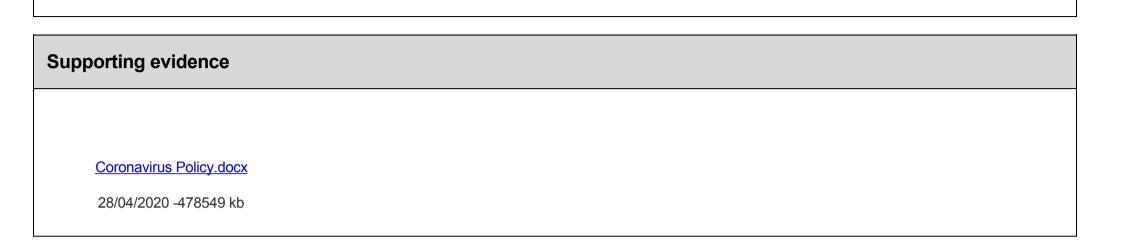

Self-containment would include staying at home in a well ventilated room, with access to clean, potable water. Those helping with grocery drop offs etc. should not enter the premises and those living with the potentially affected should keep in excess of 2 meters and leave as soon as possible.

In order to reduce the risk of the spread of Coronavirus infections, basic preventative measures are advised for the public, including: good respiratory hygiene and respiratory etiquette; frequent careful hand washing; avoiding touching one's eyes, mouth and nose; sanitary disposal of oral and nasal discharges as well as avoiding contact with sick people. (European Centre for Disease Prevention and Control)

Any hand washes or santisers should be purchased and claimed for via the internal expense system.

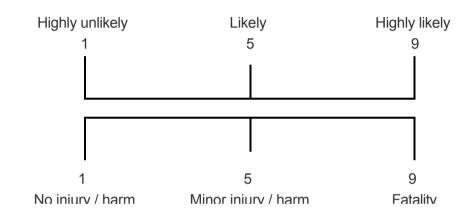

Mask Use -

- If you are healthy, you only need to wear a mask if you are taking care of a person with suspected 2019-nCoV infection.
- · Wear a mask if you are coughing or sneezing.
- Masks are effective only when used in combination with frequent hand-cleaning with alcohol-based hand rub or soap/water.
- If you wear a mask, then you must know how to use it and dispose of it properly.
- ***Masks should be utilised as a general precautionary control, however their effectiveness is not guaranteed***

Risk rating explanation

Risk ratings are calculated by considering the likelihood of an event occurring along with the severity of the potential consequence should an accident occur. After considering existing control measures, values are assigned to the likelihood and severity from the scales below and these figures multiplied to established the risk rating.

What do your risk ratings mean?

- Risk is categorised as LOW: Look to reduce risk if practicable
- Risk has been categorised as MEDIUM: Begin to plan your action to reduce the risk immediately
- Risk has been categorised as HIGH: Immediate action required to reduce the risk
